She's in GREAT shape-
It looks like it's only

The best part of the

I had a '59 35hp Lark Evinrude when I was a kid. OMC specified 25:1 fuel/oil ratio for that motor. I'm not sure if I would lean the oil mixture to 40:1 or 50:1. MHO. As was stated, dripping oil is the unburned excess and is normal for that motor. thanks eric

9. 1959 Evinrude 35 HP Lark. Not rare but not common either. Can be bought at a reasonable price because collectors don't seem to love this motor. I'm not sure why this is since it's a pretty neat looking motor. 1959 was the 50th Anniversary for Evinrude so this motor had special paint colors and decals.
