It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

The McMullans are great picture book illustrators and wonderful wordsmiths and story tellers! I bought I'm Fast! and I'm Dirty!, because my 4 year old grand-nephew loved I Stink! They were instant winners. They are a delight to read and to hear. They are also very informative, and they lead to meaningful conversations, without being preach-y.

It's a free online image maker that allows you to add custom resizable text to images. It operates in HTML5 canvas, so your images are created instantly on your own device. Most commonly, people use the generator to add text captions to established memes, so technically it's more of a meme "captioner" than a meme maker.
