Note to the Teacher: Explain to the students that in general, the inclusive OR is used in mathematics. Thus, when we say, "elements belonging to A or B," includes the possibility that the elements belong to both. In some instances, "belonging to both" is explicitly stated when referring to the intersection of two sets.

For example, quantifying numbers has 12 steps in a span from Foundation to Level 6, while operating with decimals has four steps in a span from Level 4 to Level 7. To support teachers to understand and use the numeracy learning progressions, each progression has been mapped to the Victorian Curriculum F - 10: Mathematics Continuum.
