The golden ratio is a pattern that repeats itself in nature. That is why it is so fascinating and so celebrated by many Renaissance artists who wanted to revive the ideals of Antiquity but at the same time, they also wanted to ground their art in the scientific evidence. Mona Lisa, another masterpiece of Leonardo da Vinci, presents the golden proportion in the face and also between the neck ...

Art and Math: Aesthetics of Calculations

Mathematics and art are related in a variety of ways. Mathematics has itself been described as an art motivated by beauty. Mathematics can be discerned in arts such as music, dance, painting, architecture, sculpture, and textiles. This article focuses, however, on mathematics in the visual arts. Mathematics and art have a long historical relationship.
