In this way, the electrical power industry, the wider energy sector, and parts of the rest of the economy may remain in a “trapped transition,” stranded between the plan and the market (Andrews-Speed, 2012; Pei, 2006). China is not alone in possessing a power sector in which the sector reform process has stalled or been subverted.

Power Sector - an overview | ScienceDirect Topics

“What is surprising to the general populace is that the government committed in 2017 when they came into power that they were going to address all the problematic sectors including the education sector and President Mnangagwa promised education for all yet the same government is failing and even not interested in addressing the plight of teachers.

"Govt insincere in addressing the plight of teachers ...

New Delhi: India Ratings and Research has said that the continued spread of Covid-19 would negatively impact the domestic auto industry in the near term, because the Chinese city Wuhan - the epicentre of the outbreak - is a major manufacturing hub for automobile and auto parts. Furthermore, the agency believes the sector would face pressure from not only the supply side but also the demand ...

The Plight of Abuja Electricity Consumers. Experiences of electricity consumers in the nation’s capital are generally alike, with the plight of customers being the high price paid for substandard service. Consumers have seen bills increase by as much as 100% with no subsequent service improvement. Users of electricity in Nigeria, particularly in Abuja are left at the receiving end of very poor service delivery that usually comes with a high price tag.
