example, divides the concept into possession in the narrow sense and possession in a wide sense, where the very moment of possession is weakened and irrelevant,⁴ while A. V. Isačenko argues that only the rela-1 Bernd Heine, Possession: Cognitive Sources, Forces and Grammaticaliza-

The Development of Predicative Possession in Slavic Languages

In linguistics, inalienable possession (abbreviated INAL) is a type of possession in which a noun is obligatorily possessed by its possessor. Nouns or nominal affixes in an inalienable possession relationship cannot exist independently or be "alienated" from their possessor. Inalienable nouns include body parts (such as leg, which is necessarily "someone's leg", even if severed from the body ...

Inalienable possession - Wikipedia

Possession, in the context of linguistics, is an asymmetric relationship between two constituents, the referent of one of which (the possessor) in some sense possesses (owns, has as a part, rules over, etc.) the referent of the other (the possessed).. Possession may be marked in many ways, such as simple juxtaposition of nouns, possessive case, possessed case, construct state (as in Arabic ...

Possession (linguistics) - WikiMili, The Free Encyclopedia

The Jammu and Kashmir administration on Sunday said the criticism of the strategic zones to facilitate construction by the armed forces was unfounded as the decision did not bypass any existing laws. "The government has recently approved a special dispensation for regulating construction in "Strategic Areas", required by the armed forces for their direct operational and training purposes.
