Stop talking, start doing! So as simple and appealing as 'stop talking, start doing' may sound as a slogan. In practice, it clearly is far from obvious what that entails. The conversations I had in the Netherlands showed that stop talking, start doing, requires quite a few nuances, which may explain why IBM stopped featuring this campaign.

Compulsive talking (or talkaholism) is talking that goes beyond the bounds of what is considered to be socially acceptable. The main factors in determining if someone is a compulsive talker are talking in a continuous manner or stopping only when the other person starts talking, and others perceiving their talking as a problem. Personality traits that have been positively linked to this ...

Bodybuilders tend to do a really good job of delineating between hip dominant and quad dominant work – sure, some of that is carried out on a hamstring curl or leg extension machine, but at least the intention is good! All that talk of training muscles, or the mind-muscle connection, pays dividends.
