Taperloc Hip System Zimmer Biomet

Complete Hip System. Zimmer Biomet's Taperloc Complete Hip System builds on the clinically proven Taperloc hip stem. 1-3 Launched in 1982, the Taperloc Hip Stem is the longest clinically referenced hip stem with a wedge shape, titanium substrate, and proximally circumferential titanium porous plasma sprayed design. 1-3 The system comes with easy-to-use instrumentation that accommodates a variety of surgical approaches, and uses a simple broach-only surgical technique.
